

# Garlic

## Why garlic is a smart choice

Garlic is a close relative to onions, shallots, leeks and chives. And it's a champion of medicinal benefits since it's low in calories but rich in vitamin C, B6 and manganese.<sup>1</sup> Eating garlic regularly can help you build a strong immune system and keep the common cold and flu at bay, thanks to allicin.<sup>1</sup> This nutrient found in garlic is believed to improve blood pressure and prevent heart attacks since it regulates cholesterol.<sup>1</sup>

Garlic is also rich in antioxidants that may reduce the risk of Alzheimer's disease and dementia.<sup>1</sup> So it's a great supplement to a healthy diet. Go ahead and add garlic to your stir-fry recipes, mashed potatoes or pasta dishes. Enjoy!
