Operation Santa Claus in Search of Space

Operation Santa Claus is a statewide program that coordinates with the Department of Health & Human Services to provide gifts for children receiving state services. Now in its 61st year, the Operation Santa Claus charitable holiday fund for children is in need of assistance.

The COVID 19 pandemic has affected everyone over the past two years, and in this process, the non-profit charity which serves over 3,000 children in New Hampshire has lost its' warehouse space.

The organization has been responsible for distributing over 500,000 gifts in the past and is searching for donated warehouse space in the Concord, NH area to house all of the gifts received over the next three months. The organization hopes to secure a 5,000 to 10,000 square foot space, where volunteers can log in donations and prepare them for the holiday season. The operation is made possible through generous donations and sponsorships from community members, the State Employees' Association, the National Guard, and volunteers.

The children served live with a great deal of uncertainty. Providing gifts on Christmas allows children and their families a moment of stability, which is more valuable than ever. If you or someone you may know has space or would be interested in helping, please reach out to.....

With less space, fewer funds, and more children in need, donations have more impact than ever before. Therefore, we are also accepting new sponsorships; if you are interested in sponsoring a child, direct contributions are best and can be made by visiting the State Employees' Association website at <https://seiu1984.org/osc/>.

Help make this Christmas a memorable holiday for New Hampshire's children and families in need.
