---

## Bargaining Experience

On the NHDOT sub unit bargaining team last two contracts.

---

## Bargaining Goals

To get the best possible contract without giving in just to sign a contract. I feel that NHDOT has been left far behind in pay for jobs that we are asked to do. We as NHDOT employees deserve to be treated with dignity and it starts with our wages.

---

## Anything else

I have been a union member my entire NHDOT career. I became more involved in the union wanting to make a change. I first became involved in protest, became a union steward, volunteered to be on sub unit bargaining team, and then became president of chapter17. I am in this for the long run to make NHDOT a better place to work. Most of all, getting to meet all my coworkers from different districts has been awesome and humbling to see the pride we all take in our work.
