Bargaining Experience

I have been on sub-unit bargaining for the last couple of bargaining cycles. I have also been on a master bargaining team. I have been the president of a 144 unit condo association, and have been the president of the Concord High School Quarterback Club, which is the organization to support high school football. I bring a lot of experience to the bargaining unit with my background. I have a lot of interpersonal skills working with multiple different departments throughout the DOT and the State as a whole.

Bargaining Goals

I want to continue to fight for the best possible contract for DOT personnel. I feel with the experience and the background I can be a great addition to the bargaining unit.
