NH State Employees Throw Support Behind Cinde Warmington in Democratic Gubernatorial Primary

Concord, NH — The State Employees' Association proudly announces its endorsement of Councilor Cinde Warmington in the New Hampshire Democratic Party Gubernatorial Primary.

Rich Gulla, President of SEA / SEIU 1984, remarked, "Councilor Warmington's steadfast commitment to New Hampshire's workforce and her dedication to enhancing the lives of all Granite Staters have been truly inspiring. We have full confidence in her support for us. Having collaborated extensively during her tenure on the Council, we deeply value her bipartisan leadership approach. We enthusiastically endorse her gubernatorial candidacy in the NH Democratic Primary for these reasons."

Councilor Warmington's bipartisan and inclusive leadership reflects that of New Hampshire.

"While we confront numerous challenges, we remain hopeful that we can build upon the successes of Governor Sununu's bipartisan budget," added Gulla. "Our objectives include pursuing further significant pay increases and developing bipartisan strategies for sustaining the New Hampshire Retirement System over the long term. We eagerly await input from Republican gubernatorial candidates and anticipate making an endorsement in that contest."

We extend our gratitude to all our members and supporters for their active participation. We look forward to witnessing democracy in action as we navigate the primary process together.
